SAAD

AMER

Saad Amer is an environmentalist, activist and the Founder of Plus1Vote, an organization dedicated to improving voter turnout and

**P** improving representation in democracy. The organization rallies voters on issues like climate change and has reached millions of Americans in the 2018 midterms. He works with the United Nations Framework Convention on Climate Change's Youth Constituency, is an Expert Reviewer for the upcoming IPCC report, and is an Advisor to the National Parks Conservation Association on their Next Generation Advisory Council. He has worked on environmental issues in India, China and the US. A Harvard graduate himself, Saad cocreated Harvard University's inaugural Sustainability Plan. He has organized and educated hundreds of K-12 students at the Fish Thicket Land Preserve on Long Island and has worked with Brookhaven National Laboratory.
